Ramblings from your Editor

Hello to everyone out there in Circleland. Things are starting to get busier so start paying attention to your *Circulator*. First off: Remember this is the month where we move the meeting date. If you show up at the park on the first Saturday of May, those hairy guys with slobbery mouths trying to lick your face and peeing on the bushes, ARE NOT your fellow club members. They are dogs who take over our flying site every year at this time. I am also wondering about the July meeting. If held at our traditional time, that would put us on Saturday July 5th. Are there any other activities going on in the park for the holiday weekend, or did we already talk about this and my early onset Alzheimer's has caused me to forget about it? Perhaps we need to check into this, the date that is .

The contest is only a bit over a month away. We really need everyone who is available to be there helping out. This year, we are taking on more events than we have run in the modern Circlemasters era with Half A scale and stunt as well as a combined Old Time/ Classic 30/ Classic stunt event. The intention is to draw more participants by giving them more options to fly should they decide to make the trip. You can see the risk here. What if a whole bunch of guys decide to make the trip? If that situation should arise, we are going to be busy. Please make every effort to help out with the contest.

As long as I'm begging for help here, this is going to be a tough summer for the *Circulator*. I just received my work schedule for the remainder of the year and it ain't looking pretty. So far, the only Circlemasters events I have off work for are the June meeting and the contest, and then only because I was able to take vacation days for those two. The point here is that I will not be around with my camera to take pictures for the newsletter. Neither will I be there to experience all of the fun things going on and give you mean hurtful running commentary on them after the fact. So, you guys will need to pick up the slack or we are going to have some mighty sorry newsletters for a while, not that they are all that great under the best of circumstances. Especially now, we are hooked up to the devil on that world wide web and all. You don't want the rest of the world to think we are a boring bunch of control line dinosaurs who have seen better days do you? I didn't think so. Now is your chance, help out your buddy Big How and the club in general. Send in some stuff for the newsletter. If you don't, I can promise you I will personally encourage a certain long winded vice president that I know to bring up more nutty ideas at meetings than you ever dreamed of. No skin off me, I can't go to the meetings anyway. Man! I hope she doesn't read this. Otherwise, find me a better aviation job with weekends off and we can all be happy.

This month I am running one last half A scale plan to encourage you to build for the contest. This one comes to us from the August 1970 issue of *American Aircraft Modeler*. The subject at hand is the asymmetrical Blohm and Voss BV-141 German observation plane. The BV-141 would make a cool scale model of any size. Better get going. Time is running out.

Here's a fun little twist. We recently received a contact from a German control line enthusiast on our web site contact form. There's a picture included in the newsletter as well as info on a possible opportunity for our members to meet up with him. Check it out, could be lots of fun! I can't make it to the meeting, but the boss should be there. Remember what I said earlier.

Until next month,

Howard

CIRCLE MASTERS FLYING CLUB
MEETING MINUTES for APRIL 2014

The monthly meeting of the Circle Masters Flying Club was held at the Sussex Public Library on Saturday April 5th. The meeting was preceded by a DVD of the USAF Museum at Wright-Patterson AFB in Ohio.

The meeting was brought to order by President Greg at 1:00 PM. He began, as usual, by inquiring if all members had received the newsletter and had read the minutes of the March meeting. All members present (13) indicated that they had received the newsletter and had read the minutes. No errors were noted so the minutes stood as published.

The Treasurers report was given by Ralph who detailed the past months transactions. A motion to accept this report was made by Don and seconded by Mike.

REPORTS & ANNOUNCEMENTS: Don read an email that he received from the NASA regarding the our inclusion of 1/2A scale into the next contest. Our contest will be listed on their web site. Also, Don reported that Bob Ponik's wife, Shirley called and asked if he could please inventory Bob's model planes and related items for a possible sale as he will never use them again. He said that he will do that and help he arrange the sale. Mike reported on an email he received from Pete who was at VSC in Tucson about a suggestion that we change the 1/2A Stunt pattern to the beginner pattern. There as no objection. Mike will make the change and notify prospective contestants.

OLD BUSINESS: Jason reported that he finally will be on the agenda at the next Sussex Park Board meeting where he will request the placement of the proposed new club logo and flight rules. President Greg asked if there was any interest in the club participating in the Pewaukee Boat Show on August 16th. Following a vote, there was none.

NEW BUSINESS: Greg discussed the changes for a new tri-fold club hand out.

Since there was no more business to discuss Greg called for a motion to adjourn the meeting. The motion was made by Jason and was seconded by Don. The meeting was adjourned at 1:45 PM.

SHOW & TELL: Jason brought in his partially completed 1/2A Profile Scale Model of a B-25.

Submitted by: Wayne M. Schmidt, Secretary

UPCOMING EVENTS

Note May Meeting Date is Changed!

May Meeting: Saturday May 10th, 1:00 PM. Sussex Village Park. Flying before and after the meeting. This is the meeting where we adjusted the date because of the big Dog Show in the park so don't come on the 3rd unless you really like dogs!

June Meeting: Saturday June 7th, 1:00 PM, Sussex Village Park. Flying before and after the meeting.

Wisconsin Stunt and Scale Championships, Sunday June 8th Wagner Park, Pewaukee WI. Get there to set up around 7:00AM.

July Meeting: Saturday July 5th, 1:00 PM, Sussex Village Park. Flying before and after the meeting. Is this going to be a conflict with other Village Park activities?

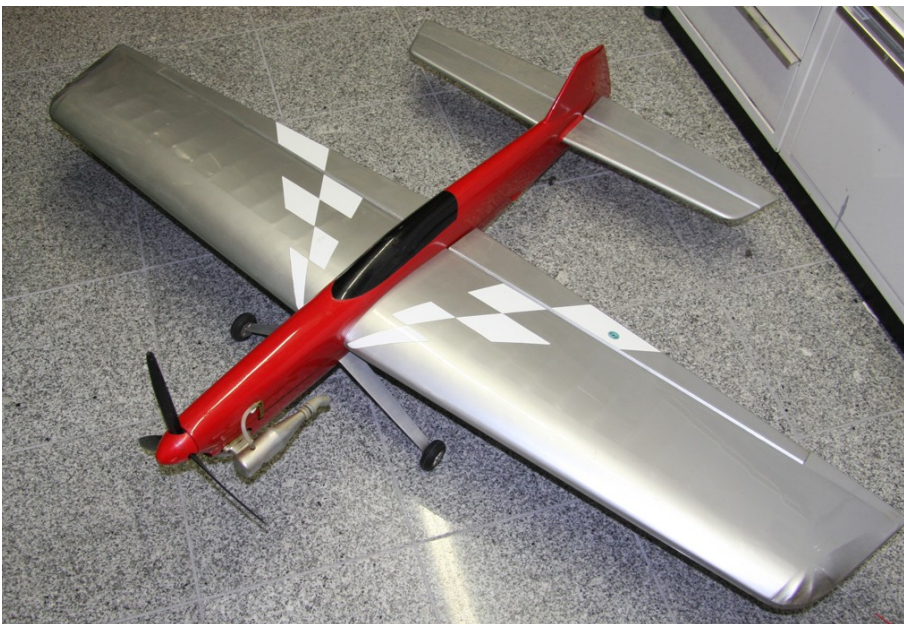

The North Korean Air Force demonstrates new high tech combat aircraft

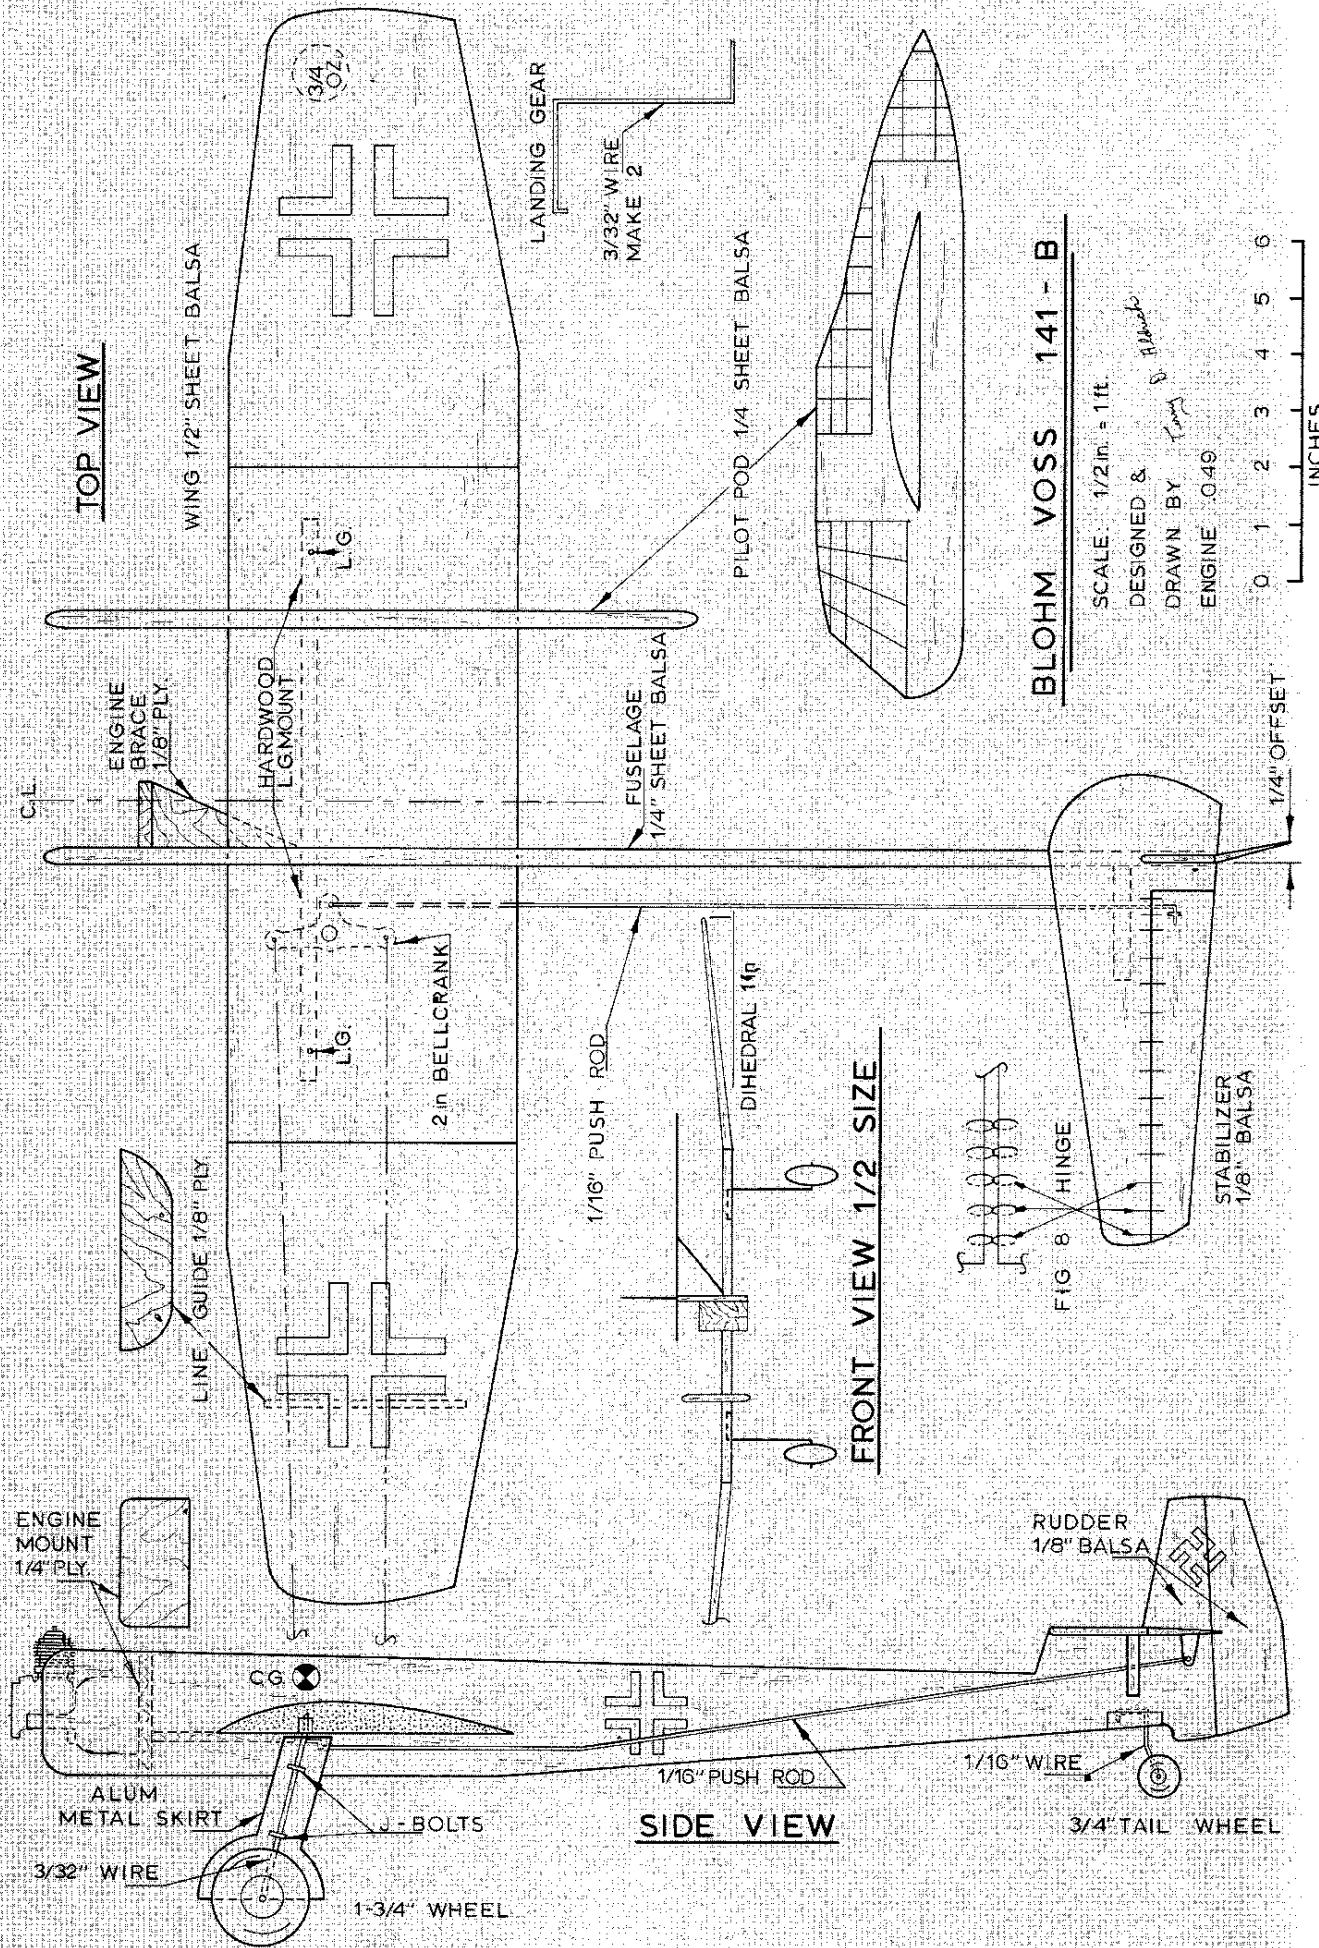

INTERNATIONAL SCENE

As I mentioned on the first page, now that we are reliably on the internet, people actually find us. Case in point: The above gentleman, Kai Pistorius, hails from Bielefeld, Germany. Kai has been in the Milwaukee area for a few days now and contacted Melissa looking for control line enthusiasts in the vicinity. Unfortunately, Kai is only in Wisconsin until May 2nd. Hopefully some of you will be able to visit with him before he leaves. We have contact info for Kai if any of our members would like to correspond with him. The photo shows Kai in his shop, pretty nice set up he has there. Note what appears to be a home built live steam engine in progress on the bench, as well as the control line goodies throughout the room. Some members are meeting up with Kai on Wednesday, April 30th Around 5ish at the flying field in Sussex. Contact Pete if you are interested in joining in on the fun. I hope some of you get this on time.

Kai also sent this picture of one of his models. Sweet looking machine. I don't know what design it is. Maybe someone can ask him if some of you guys are able to meet up with him.

Circlemasters Flying Club Annual Contest

June 8, 2014

EXPANDED TO INCLUDE MORE EVENTS, MORE FUN WISCONSIN STATE STUNT AND SCALE CHAMPIONSHIP

WHERE: WAGNER PARK, PEWAUKEE, WI.
