At The Handle

Ramblings from your Editor

If you would like to contribute material, please submit to the address on the cover or contact me at (715) 697-8458 I may be reached via e-mail at clmodman@wctc.net

Greetings all, It's time for another round of the *Circulator* to liven up your month. We have plenty of important stuff to cover this month. First off: November is when we choose our leaders, no I don't mean Donald or Hillary. This month is when we pick club officers for the upcoming year. It is vitally important that you participate in this process. Run for a spot in Circle Masters leadership. If you don't like the way something is being done, now is your big chance to seize the bully pulpit and try to turn the ship in your direction. Don't forget, it's also a good thing to do to keep the club moving along with everyone helping out, not just the same few peeps playing musical chairs because nobody else will be bothered by being an officer. Consider it a kind of civic duty. Take a turn as a candidate for club office. Who knows, maybe you won't get any votes and you are off the hook.

What else can we spin yarns about? Here is a good one. If you are familiar with the NCLRA, they are the National Control Line Racing Association. These folks are the official Special Interest Group that the commandants in Muncie recognize as the voice of control line racing. Special Interest Groups (or SIGs) have the responsibility of running their respective events at the NATS, providing volunteers to time, judge or whatever is needed as well as representing their participants on issues such as rules etc. Well the NCLRA has decided to make joining their SIG free for AMA members with an interest in U/C racing. Your free membership gets you the NCLRA newsletter *Torque Roll* which is full of helpful information and technical know how on racing topics. The only catch is that the free membership sends the newsletter electronically. If you want a copy printed and mailed to your pad, it will cost you ten bucks per year to cover postage. Look them up on the interweb, at nclra.org. Like my great uncle Alfons used to say, anything free is worth saving up for.

Are you building anything? It is the building half of the control line calendar up here in Packer country. If you have a good project going, or even a lousy one I suppose, send some picture in to the *Circulator*. You could also bring it along to the meeting that I'm certain you were going to attend, for show and tell, so the other members can see your new workmanship and marvel at it or snicker behind your back, whichever the case may be. Build, build like the wind or next spring will roll around and you won't have anything to fly.

Back again for another round is "Name That Plane", the game where you can win fabulous prizes by doing a little research and figuring out the identity of a far out plane, full sized or model. The rules are simple. The monthly winner is chosen randomly from correct answers received **at the meeting**. Not at the meeting? Boo hoo, you can't win. And don't forget, the better the bribe, the more often your entry is randomly picked. Good Luck.

On a sad note: Member Ron Wojnar's father, Tony passed away recently. Join me in offering Ron our sincere sympathies at this trying time.

That's it for this month, in fact this whole issue is short and all business, come to the meeting and make your club great again by running for a club office.

Your deplorable editor,

BigHow

CIRCLE MASTERS FLYING CLUB Meeting Minutes for OCTOBER 2016

The October meeting of the Circle Masters Flying Club was held at on the first Saturday of October at the Sussex Public Library. This day should have been the last scheduled flying day of the season but cold and wind chased us indoors.

The meeting was brought to order by President Greg @ 1:08 AM. All members (8) had received the September newsletter and had reviewed and approved the minutes from that months meeting.

The treasurer's report was presented by club Secretary and temporary treasurer Wayne. He outlined the financial activity for the club during the past month. His report was approved.

REPORTS & ANNOUCEMENTS: Wayne reported on a newspaper article that announced the return of the Milwaukee Air and Water show for 2017.

Wayne also reported that revised rosters have been emailed to all members.

Some members reported that they could not open the Word document. Dave offered to convert it to a PDF file and resend.

OLD BUSINESS: A discussion regarding the club contest for 2017 was prompted by an email from CD Pete asking members for a confirmation as to the date and the AAA level sanction. All agreed to both the date and sanction level. Pete will file for both asap.

NEW BUSINESS: Dave explained the goings on at Makers fair held on Sep. 24/25 and believes it might be a venue at which our club might participate.

Wayne added that it could be something brought up at the next R/C Assoc. meeting to gauge their interest.

WEB BUSINESS: Some small changes coming.

All business having been discussed, Greg asked for a motion to adjourn. It was moved and seconded to adjourn the meeting at 1:50 PM.

SHOW AND TELL: New member Randy showed his new "Tuff Baby" 1/2A.

Submitted by: Wayne M. Schmidt, Secretary

10/26/2016

Upcoming Events GO TO THE MEETING YOU PROBABLY WON'T REGRET IT

Name That Plane

This one is so weird, I'm not even sure what it is. Give it a shot.
